

ADAPTIVE FASHION MARKET INTELLIGENCE

Threadline

While interning at a startup working on early cancer detection, I kept noticing gaps beyond treatment — people couldn't find clothing that worked for their bodies.

That's why I built Threadline.

\$15-20B

Market in 2026

35M

US consumers

6-8%

Annual growth

A \$15-20B market. Consumers know exactly what they need. No brand is listening.

"Help me I cannot make one more Amazon return. I'm weeks out from surgery and I'm looking for something that actually works."

— r/breastcancer • verified post • May 2026

168K

surgeries annually
in the US

54M

US adults with
arthritis

\$20K+

cost of one brand
focus group

Threadline reads what adaptive clothing consumers say — and turns it into ranked, actionable opportunities a brand can act on instantly.

**COLLECT**

Reddit posts
Amazon reviews
2,353 signals

**FILTER**

Quality gate — only real
verified consumer
language

**SYNTHESISE**

AI ranks and generates
product opportunities
weekly

**INSTANT**

Open the web app —
select a condition — see
ranked opportunities
instantly

We use AI to **read thousands of consumer signals at scale** — and turn them into ranked product opportunities instantly.

WITHOUT THREADLINE

Brand reads 50 reviews manually

Misses cross-condition patterns

\$20K focus group takes 6 weeks

Still building on a guess

WITH THREADLINE

Reads 2,353 signals — instantly

Finds cross-condition opportunities

Delivers ranked opportunities —
instantly

Product decision is defensible

Prove the value first. Then charge for it.

Brands spend \$20,000+ and 6 weeks on a focus group. Threadline answers the same question in days.

STAGE 1 — NOW

Free

pilot

One partner tests Threadline on a real product decision at no cost. Prove the value first.

STAGE 2 — VALIDATED

\$500-1K

per insight report

After pilot proves value — still 20x cheaper than a focus group.

STAGE 3 — VISION

\$1,500+

per month

Ongoing subscription for continuous adaptive market intelligence.

How we would reach our first customers

01

PRIMARY CHANNEL

Hospital & Cancer Center Partnerships

They have patient trust and relationships with adaptive brands. Natural bridge to first customers.

02

FIRST CUSTOMERS

Small Adaptive Clothing Brands

Can't afford focus groups. Most motivated. Reachable directly via LinkedIn outreach.

03

GROWTH HYPOTHESIS

Prove Value → Expand

One successful pilot creates a case study. That opens doors to mid-market retailers.

Our competitors sell clothing. Threadline sells the intelligence that tells any brand — including them — what to build next.

PRODUCT CO.

**Tommy Hilfiger
Adaptive**

Broad market, not condition-specific. Cannot identify the next unserved need.

PRODUCT CO.

Silverts

Built for caregivers. Sells garments — not upstream intelligence.

PRODUCT CO.

Reboundwear

Narrow post-surgery focus. Not a repeatable intelligence system.

INTELLIGENCE

Threadline

Turns consumer signals into ranked product opportunities. Finds cross-condition needs. Scales to any condition.

✓ LIVE MVP — DEPLOYED

A real, working product — live on the internet today.

TODAY — LIVE

Deployed and running

2,353 consumer signals processed. 20 ranked opportunities across 4 conditions. Weekly automated refresh. Live at threadline-app-szob.onrender.com

WHAT'S NEXT

First brand partner pilot

Get one adaptive clothing brand or hospital to use Threadline on a real product decision. Validate that the opportunities are actionable.

PHASE 2 — VISION

Talk with your data

Add a chatbot layer — brand PMs ask questions, Claude Sonnet answers using the 2,353 signals as live context. Intelligence on demand.

Built as a graduate course project — now a live product anyone can use.

Live product — real numbers

2,353 Consumer signals processed

20 Ranked opportunities across 4 conditions

4 Conditions covered (post-mastectomy, ostomy, RA, post-surgical)

Weekly Automated pipeline refresh every Sunday

The live app — open right now

LIVE PRODUCT DEMO

threadline-app-szob.onrender.com

Select condition Post-mastectomy, ostomy, RA, post-surgical

See opportunities 20 ranked cards, pre-generated weekly

Click any card Full opportunity detail — consumer evidence included

Instant load No waiting — zero LLM calls at query time

Auto-refresh Pipeline runs every Sunday, 2am UTC

Stop guessing what adaptive customers need.

Start knowing.

A PILOT PARTNER

One brand or hospital willing to test the output on a real product decision — within 60 days.

TECHNICAL HELP

A developer to automate the system fully. Currently partly manual — that's the key blocker.

AN INTRO

Anyone in adaptive fashion, healthcare, or retail who should hear about this.
