

Behavrix

Human Risk Intelligence Platform

80% of breaches are caused by people — not firewalls, not software. We make human behavioral risk visible.

The Problem

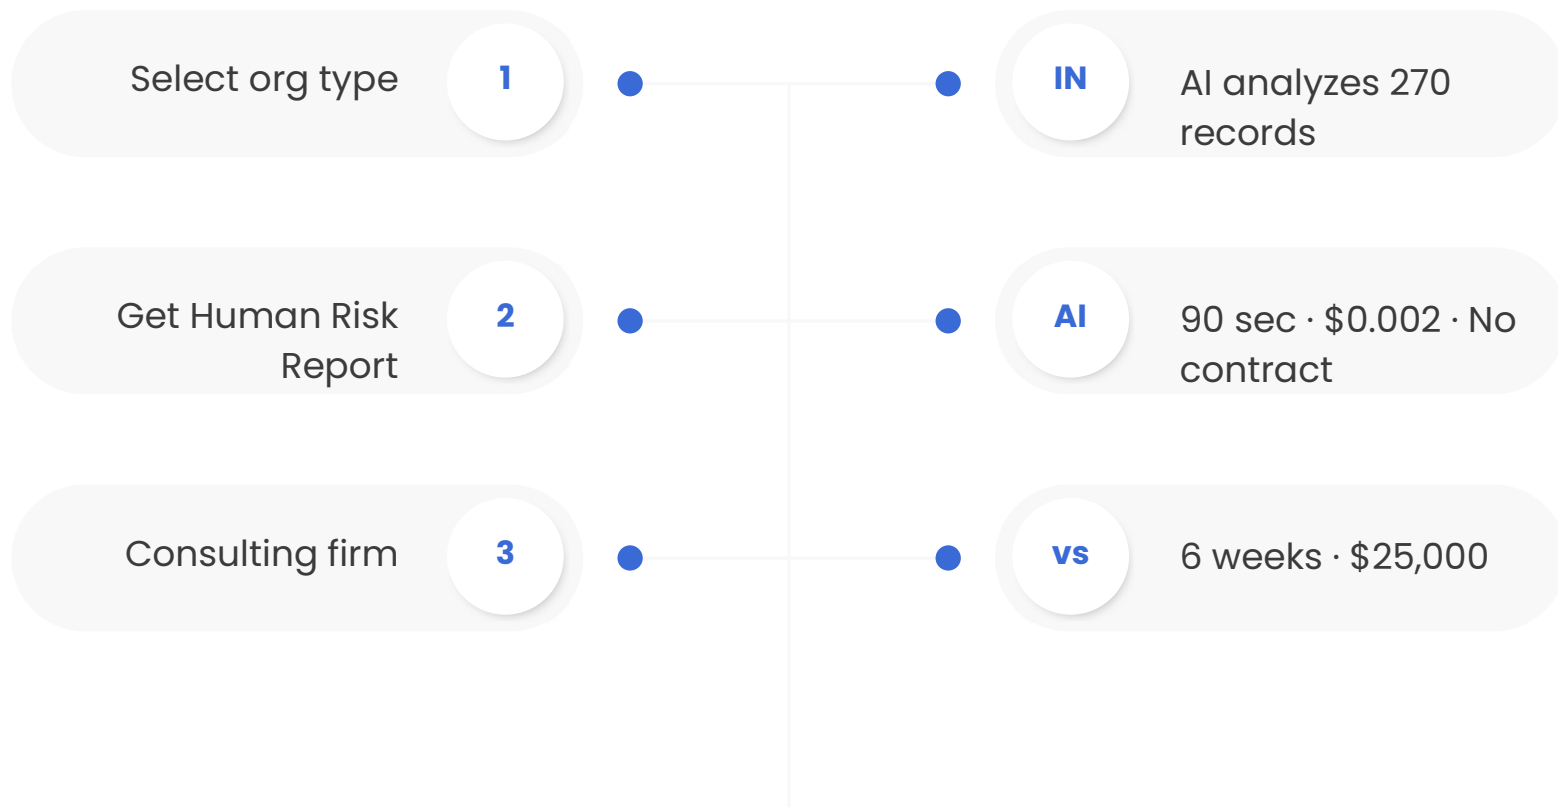

80% of breaches caused by human behavior

\$9.5T annual global cybercrime cost

\$25K avg consulting engagement cost

6 wks to get one vendor risk assessment

Behavrix vs Alternatives

The Magic, Simplified

270

Real attack records

90
sec

Avg report time

4

Behavioral archetypes –
MITRE

Pay Per Report

Solo analysts. \$0.50 per report. No commitment. On-demand human risk reports for vendor assessments.

Team Subscription

Security teams. \$299 per month. Unlimited reports across all 10 organization types.

Enterprise API

GRC platforms. \$2,000 per month. White-label API plus custom personas for embedding.

Business Model

Go-to-Market Strategy

Direct Outreach

Boston financial institutions via MA State Lottery co-op and NEU alumni at State Street. Goal: 10 paying customers in 90 days.

Consulting Partners

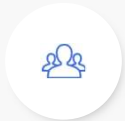

GRC consulting firms white-label Behavrix. They charge \$25K — we enable it in 90 seconds. Goal: 3 partnerships in year 1.

Community Growth

ISC2, ISACA, r/netsec communities. Free reports for practitioners. 20% conversion target. Goal: 100 users, 20 paying.

Competition

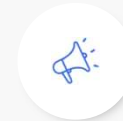

KnowBe4

Trains employees on phishing. No vendor risk reports. 25-seat minimum. \$2.79–3.75/user/month.

Prevalent TPRM

Questionnaire-based compliance. Misses human behavior entirely. Enterprise contracts, weeks to implement.

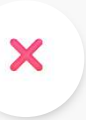

Drata / Sprinto

Compliance automation for SOC 2. No behavioral modeling. Built for auditors, not analysts.

No behavioral archetypes

No MITRE mapping

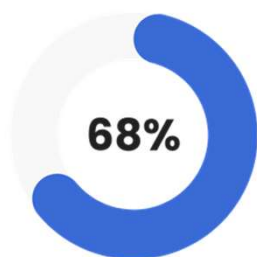

Behavrix wins all 6 factors

Development Plan

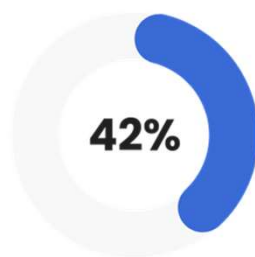

TODAY ✓	Q3 2026	Q4 2026	Q1 2027
✓ 270 records verified ✓ AI pipeline built ✓ Streamlit deployed ✓ 10 reports live ✓ 3 user tests done	→ Vendor intake layer → TPRM workflow → FFIEC mapping → PDF export → Report history	→ Enterprise API beta → White-label ready → Partner onboarding → Multilingual v1 → Mobile optimized	→ API public launch → Live CISA feeds → Monthly data refresh → Series A ready → \$25K MRR target
