

INFO 7375 · BRANDING & AI

MentionMap

Your brand's morning briefing,
powered by AI

THE PROBLEM

4.9 billion voices. Zero signal.

Solo founders and small teams get hundreds of brand mentions every week — and have no idea what's being said.
By the time they find out, the damage is done.

By the time you notice a brand crisis, it's already gone viral.

4.9B

active social media users daily

\$3K

per month for enterprise monitoring

\$0

what most small teams spend — and learn

Paste mentions. Get your morning brief.

1

Collect

Copy mentions from Twitter, Reddit, or Google reviews into MentionMap

2

Analyze

AI reads tone, detects spikes, and identifies your brand personality

3

Act

Wake up to a plain-English report with draft responses ready to post

No account. No API key. No analyst. Just answers.

"We use AI to understand
brand personality —
not just count mentions."

Sentiment Engine

Smart AI that learns patterns —
how people feel, not just what
they say

Brand Personality

Understands your brand
archetype — Hero, Creator,
Caregiver and more

Early Warning

Spots unusual spikes before a
crisis goes viral — your brand
smoke alarm

Free to start. \$29 to grow.

□ 500 Pro users = \$174,000 ARR · Year 2 target: \$840K ARR

First 10 customers this month.

Three distribution channels — zero paid ads to start.

01

HackerNews

Post a "Show HN" — the exact community of technical solo founders who can't afford Brandwatch

02

Product Hunt

Launch on a Tuesday — early upvotes from the AI tools community drive organic discovery

03

Reddit

Answer questions in r/entrepreneur + r/startups. Helpful answers, link the free tool

Already in the Madison Framework ecosystem — built-in early adopters at Northeastern

COMPETITION

Nobody owns this corner.

Tool	Their weakness	Our edge
Brandwatch	\$800–3K/mo, needs analyst	10× cheaper
Sprout Social	Scheduling tool, not intel	Pure insight
Mention.com	Keyword alerts only	Full depth
MentionMap	Free · Instant · Complete	✓ Ours

The only tool that is both easy AND deep. That's the unfair advantage.

Working today. Growing this fall.
