# SignalBrief Investor Pitch

Source-linked decision brief for AI founders

The loudest post keeps winning the roadmap.

## **Time**

**3 hours weekly**

Scanning HN, DEV,  
GitHub, Reddit,  
newsletters.

## **Noise**

**Signal gets buried**

One viral thread can  
outrank a real  
pattern.

## **Risk**

**Roadmaps drift**

Small teams bet  
without research  
support.

# One ranked brief replaces hours of scanning.

Collects developer posts, articles, and repos.

Ranks what matters,  
explains why, and  
recommends next moves.

Cross-source ranking

HN, DEV, and GitHub checked together.

Actionable output

Priority, confidence, sources, next move.

A signal only counts when evidence agrees.

AI explains the trend. Trust comes from sources and uncertainty.

**Discussed** Developer debates

**Explained** Practitioner posts

**Adopted** Repo adoption

**Verified** Weak data labeled
